

# The Queensland Plan review - Your feedback on The Queensland Plan

If you would like to respond as a member of the community *and* as a representative from an organisation or business, please complete separate surveys for each response.

## Introduction

1. *Are you responding as a (select one only):* Not-for-profit organisation

## A long-term community vision for Queensland

2. *To what degree does the vision in The Queensland Plan (see consultation paper) still reflect your or your organisation's aspirations for Queensland?* Mostly

*Please provide a brief explanation.* The current vision reflects CCIQ's aspirations for Queensland, particularly with the statements: "our brightest minds will take on the world and we will work collaboratively to achieve the best results for Queensland"; and "we will be the greatest state in which to live, work and play". These statements could be strengthened by a direct reference to be the best State to start and operate a business.

3. *Does the vision in The Queensland Plan address what you think are the key environmental, economic and social trends that are most important for Queensland?* A little

*Please provide a brief explanation.* Key economic trends which Queensland cannot ignore include the rising cost pressures, skills shortages and increased globalisation businesses of every size and geographic location.

## Foundation areas, goals and targets

4. *Nine foundations create the framework for The Queensland Plan. All foundations have a number of goal's that highlight what Queenslanders said they wanted to be, do or achieve. Each foundation has one or more high-level targets to focus our efforts towards achieving success. See consultation paper for a summary of the framework.*

*Health and wellbeing* Yes

*Environment* Yes

*People* Yes

*Infrastructure* Yes

## Governance Unsure

If \u2018No\u2019 for any of the foundation areas, please provide a brief explanation. **ECONOMY:** There must be a goal to make Queensland the best place to start and operate a business if we are to enjoy high incomes and abundant job opportunities.

5. How do you use the goals, targets and performance measures outlined in The Queensland Plan? Please select the most appropriate responses. To inform strategic and/or long-term goal setting

### Implementation by community, business and industry

6. Under The Queensland Plan, the community, businesses, industry and government all have a responsibility to contribute to achieving the aspirational vision for Queensland over the next 30 years. These contributions are guided by the Queensland Plan Act 2014 (the Act), The Queensland Plan and the Ambassadors Council. How much does The Queensland Plan inform your strategic and/or long-term plans or actions? Quite a bit

Please provide a brief explanation. The Queensland Plan is a broad, high-level plan which assists in our organisation understanding the values of residents across Queensland.

7. The Ambassadors Council promotes awareness of the Plan, encourages the community, business and industry to strive towards its vision and goals, and provides advice to the Premier regarding the implementation of the Plan. Under the Act, the Council must collectively represent the community, business, industry and regional Queensland. Do you think an advisory body, like the Council, is an effective mechanism for engaging community, business and industry in implementation of The Queensland Plan? No

Please provide a brief explanation. Although important, the Ambassadors Council should only be one avenue for promoting the Plan. Furthermore, should there be scope to expand the Ambassadors Council to include more prominent Queenslanders, this would substantially increase awareness.

### Additional comments

8. Please provide any additional comments on the vision, foundation areas, goals and targets, and implementation of The Queensland Plan below: To maintain the current credibility, longevity and effectiveness of the Queensland Plan, it must remain free from politics and represent the true aspirations of the Queensland community, from the ground up.
